

# MEDICATION PROFILE MANAGEMENT

## Boost your pharmacy's efficiency!

Our reliable team of remote pharmacists can help you arrange, categorize, and structure all of the medication data in your pharmacy software.

**With this service, you can:**

- Have a smoother workflow.
- Organize important data in your pharmacy software.
- Find patient medication profiles faster.
- Resolve prescription concerns faster.
- Keep prescriptions records updated.
- Reduce prescription errors.

# WE CAN HELP KEEP EVERY PATIENT'S MEDICATION PROFILE ACCURATE, ORGANIZED, AND UPDATED.

## Ensure Prescription Accuracy

By carefully monitoring medication data, our remote staff can help you anticipate possible drug interactions and contraindications, as well as minimize duplicate and inconsistent prescriptions.

## Organize Medication Information

To keep your pharmacy efficient, we organize your pharmacy software by arranging, categorizing, and structuring the medication data.

## Categorize Prescriptions

Our remote pharmacists can help you locate patients and prescriptions faster by sorting prescriptions based on their medication types (regular, PRN, etc.).

## Trace Medication History

Our HIPAA-certified remote staff can help trace drug dosage changes by using a reliable audit trail feature to check previous prescriptions.

## Update Existing Profiles

When we receive notifications about changes in a patient's medications, we see to it that the patient's profile is updated promptly and accordingly.
